

SOHIT HARCHAND

Microsoft Power Platform & Dynamics 365 CRM Developer

3+ Years Experience

Dynamics 365 CRM & Sales

Copilot Studio & AI Builder

10+ Enterprise Solutions

PROFESSIONAL SUMMARY

Microsoft Power Platform and Dynamics 365 CRM Developer with 3+ years of experience delivering enterprise business applications, intelligent workflow automation, and AI-powered Copilot solutions. Expert in building scalable digital transformation projects across Healthcare, NDIS, Education, and HR sectors independently in remote environments.

TECHNICAL EXPERTISE

Dynamics & Power Platform	Dynamics 365 CRM, D365 Sales, Business Process Flows, Power Apps, Power Pages, Dataverse, SharePoint
Automation & Workflows	Automated Cloud Flows, Wait & Approval Workflows, Scheduled/Instant Flows, D365 Trigger Flows
AI & Conversational Systems	Copilot Studio, Azure OpenAI, AI Builder, Prompt Engineering, AI Agents, Knowledge Base Systems
Analytics & Base Dev	Power BI, Embedded Dashboards, DAX, Dataverse Reporting, Power Fx, Python, JavaScript, SQL

KEY ENTERPRISE PROJECTS & SOLUTIONS

Customer Service & Sales Automation Platform	Dynamics 365 CRM Implementation
- Implemented a structured D365 CRM Sales pipeline for lead capture, qualification, and opportunity lifecycle tracking. - Configured Business Process Flows and integrated multi-stage Power Automate Wait & Approval workflows for manager sign-offs. - Extended the standard data model using custom Dataverse entities, automated notifications, and event-driven D365 triggers. Technologies: D365 CRM, D365 Sales, Power Automate, Wait & Approval, Dataverse, Email Automation	
Clinic Management & Patient Engagement System	Healthcare Sector
- Designed an end-to-end patient lifecycle system using Dynamics 365 CRM, Power Apps, and secure Power Pages portals. - Automated triage, treatment journeys via CRM Business Process Flows, and built automated SMS/Email appointment reminders. - Enforced healthcare compliance using advanced role-based security models within Dataverse. Technologies: Dynamics 365 CRM, Power Apps, Power Pages, Dataverse, Power Automate, Role-Based Security	
Workforce Scheduling & Care Coordination System	NDIS Operations
- Built a real-time shift scheduling and availability tracking application for support workers using Power Apps and Power Fx. - Automated workflow escalations using Power Automate Wait conditions and central support document repositories on SharePoint. Technologies: Power Apps, Power Automate, SharePoint, Power Fx, NDIS Compliance	
AI-Powered Assessment & Evaluation System	Ed-Tech Platform
- Developed an automated student evaluation platform leveraging Copilot Studio, Azure OpenAI, and Dataverse workflows. - Engineered intelligent marking scripts providing contextual feedback, linked with real-time performance tracking dashboards in Power BI. Technologies: Copilot Studio, Azure OpenAI, Dataverse, Power Automate, Power BI, AI Builder	
Enterprise AI Knowledge Assistant & Document Analysis	AI Automation
- Built an enterprise-level Copilot Agent using Copilot Studio and Azure OpenAI to analyze corporate documents and forms. - Integrated AI Builder for automated data extraction, classification, and continuous compliance mapping with Dataverse and SharePoint. Technologies: Copilot Studio, Azure OpenAI, AI Builder, Power Automate, Dataverse, SharePoint	

- Created a full-cycle recruitment platform with multi-level automated approval flows, custom tracking, and embedded Power BI analytics.
- Automated document compliance audits via AI Builder, mapping document trails and SLA windows with automated escalation triggers.

Technologies: D365 CRM, Power Apps, Power Automate, AI Builder, Dataverse, SharePoint, Power BI

VALUE PROPOSITION & CORE STRENGTHS

- 01 D365 CRM & BPF Expert:** Enforced structured corporate compliance directly through production-grade Business Process Flows.
- 02 Advanced Workflows:** Deep specialization in Power Automate complex Wait conditions and multi-level approval gates.
- 03 AI Solution Delivery:** Built production-ready Copilot Agents using Azure OpenAI and AI Builder across enterprise operations.
